

Spectrum's MSX Multi-Sport Controllers

Recognized as the most technologically advanced and versatile controller available, it comes in a protective carrying case that resists shock and vibration.

Features include:

- 4-line BACKLIT LCD game status display helps operator respond quickly to changes
- Memory backup protects game information during power outages
- Control box is powered through the control cable eliminating the need for power cords or outlets
- Programmable to celebrate a home score with flashing numbers
- Easily programmed so scoreboard may be used as a practice segment timer or time of day clock
- Easy set up for 15 different sports
- Controller is available in standard direct wire configuration as well as Radio and Wireless

**Dynamic Wireless
Option Available**
