

4 Face Scoreboard Hanging Info.

Scoreboard: _____

***YOU MUST** prepare your gymnasium for the scoreboard to be hung and supported before installment.

***PLEASE NOTE** that the scoreboard will be centered at center court.

*Weight _____

***Signage:**

*Top _____

*Bottom _____

*Added Height _____

*Total Height _____

***REMEMBER** you should have at least 25ft from the bottom of the scoreboard to the court below. This is to comply with UIL regulations.

Ideal alignment of scoreboard mounts and ceiling joists shown below. Which would allow for chains to be at 90 degrees from eye-bolt to ceiling joist.

This is an example of ideal alignment and no modification needed to the ceiling joist.

If your ceiling joist are not in ideal alignment, then you will have to create something on your ceiling that a scoreboard can be suspended from with it's weight also in mind.

*Modification for correct suspension of a scoreboard.

Alignment is off and the ceiling needs to be modified so that the scoreboard can be centered over center court.

Ideal alignment of scoreboard mounts and ceiling joists shown below. Which would allow for chains to be at 90 degrees from eye-bolt to ceiling joist.

If your ceiling joist are not in ideal alignment, then you will have to create something on your ceiling that a scoreboard can be suspended from with it's weight also in mind.

This is an example of ideal alignment and no modification needed to the ceilings joist.

Alignment is off and the ceiling needs to be modified so that the scoreboard can be centered over center court.

Example of ideal suspension of the ceiling joists and a scoreboard with 90 degree alignment from eye-bolt to ceiling joist.

***IF NOT IDEAL** then you will have to create a solution for your ceiling to suspend the scoreboard correctly. It must be done **BEFORE** Spectrum can install your scoreboard.

***REMINDER:** the scoreboard will be centered at center court.
