

PACKAGE CONTENTS:

- EV-1 Practice Timer
- 12V 3Ah Smart Charger
- EV-1 Controller
- Pause/Start Fob

EV-1 CONTROLLER GUIDE:

-Flip the power switch to the "I" position, which is the "ON" position. Once the timer is on the indicator LED's below the power switch will display your current battery life percentage.

-Controller LCD Display: SEG 1 U 5 MIN
(RED LED ON TOP ON)

-CLOCK ON/OFF turns timer's clock on and off {{(*) on the display=clock on} {EX: SEG 1 * U 5 MIN}
The timer must be off {{(*) not on} to make any changes to the segment or the set time for the segment.

-To change the segment, enter a number (1-99) then SET SEG.

-To program individual segments, go to the segment number and enter the time (min) SET TIME.

-To change the duration of ALL segments not set by the SET TIME key, enter time (min) SET DEFAULT.

-To change Inter-segment time, enter time (sec) MODE.

-UP/DOWN will toggle counting mode from UP to DOWN to UP etc....

- 9111 MODE – Practice Segment Timer (min)
- 9222 MODE – JV Clock
- 9333 MODE – Snap Clock
- 9444 MODE – Practice Segment Timer (sec)
- 9123 MODE – Test Mode

PAUSE/START FOB:

- 50 yard transmit range.
- Can be used to pause or start the segment clock.

LED BATTERY LIFE INDICATORS:

- 4 LED's related to the life of the battery.
 - First, green LED: Full charge
 - Second, green LED: 2/3 charge
 - Third, yellow LED: 1/3 charge

-When the red LED is activated you will be given a grace period of 20 minutes, then the faceplate will automatically turn off* to signify that the timer needs to be charged. You can plug in the charger at any point and still run the timer.

**Note: The only exceptions are when the faceplate automatically turns off/when the grace period is activated, you will need to turn off the timer and turn it back on with the charger plugged into the timer, to continue use.*

CHARGING:

-The EV-1 can run 12+ hours. It's average charging time is 6 hours.

-To charge the timer simply plug in the smart charger to a 120V power source, then plug the barrel plug into the timer. The charging port on the timer is located straight down from the LED indicators.(A RED light on the charger means charging, GREEN means fully charged).

REPLACEMENT AND SERVICE:

-If you need to replace the fob, smart charger or have any service needs please call (713) 551- 4757.

WARRANTY:

-The EV-1 comes with a 1 year warranty.
